

GENERAL ARRANGEMENT

Amara heart studs / two identical earrings per pair

Front, rear and side views

MAIN DIMENSIONS

Head	9.04 W × 9.34 H × 5.58 D
Stone reference	6.00 W × 6.00 H × 3.55 D; CZ mesh
Post	Ø 0.80 × 10.50 exposed
Total depth	16.08 including post

Dimensions describe the uncoated model. Check finished size on the first sample.

NOTES

Stone setting: two upper prongs and one lower point prong. Cut the seats for the selected moissanite.

Post projects from the rear. Match the post and butterfly back before approving the sample.

Front and rear views show the head without the back fitted.

PRODUCT SPECIFICATION

Quantity: one pair = two studs, two stones and two backs

MATERIALS AND COMPONENTS

Head	925 sterling silver; cast shell, stone seat, three prongs and rear boss.
Stone	Clear heart-cut moissanite; one per stud. Supplier cut and exact dimensions to confirm.
Post	925 sterling silver; Ø 0.80, exposed length 10.50. Attach to rear boss.
Back	925 sterling silver butterfly back, matched to post. Supplier part number to confirm.
Gold finish	18K gold vermeil on sterling silver head, post and back; minimum 3.5 µm of 18K gold alloy on all significant surfaces.
Surface	Satin outer fold; polished rim, prong tips and skin-contact back.

FINISHED DIMENSIONS

Head width	9.04 ± 0.20 *
Head height	9.34 ± 0.20 *
Head depth	5.58 ± 0.20 *
Post diameter	0.80 ± 0.03 *
Exposed post	10.50 ± 0.20 *
Stone	Final moissanite size to confirm; CZ reference mesh is 6.00 × 6.00 × 3.55.

* Proposed limits; confirm on the first finished sample.

PRODUCTION DETAILS

Setting	Fit and secure the selected stone; protect its point. Setter to approve prong contact.
Post and back	Confirm attachment method, alignment and clutch fit after plating.
Coating check	Measure accessible areas by XRF; use a representative sample for areas the probe cannot reach.

APPROX. TARGET UNIT COST	TARGET MOQ	STATUS
NGN 15,000 / pair	-	Quotation and sample

Cost target requires a new quote for moissanite and vermeil; MOQ is open; tolerances are proposed.

COMPONENT CALLOUTS

Amara heart stud / front and side views

FRONT VIEW

SIDE DETAIL

925 sterling silver head

Satin outer fold

Lower point prong

925 silver post

Upper prongs (2)

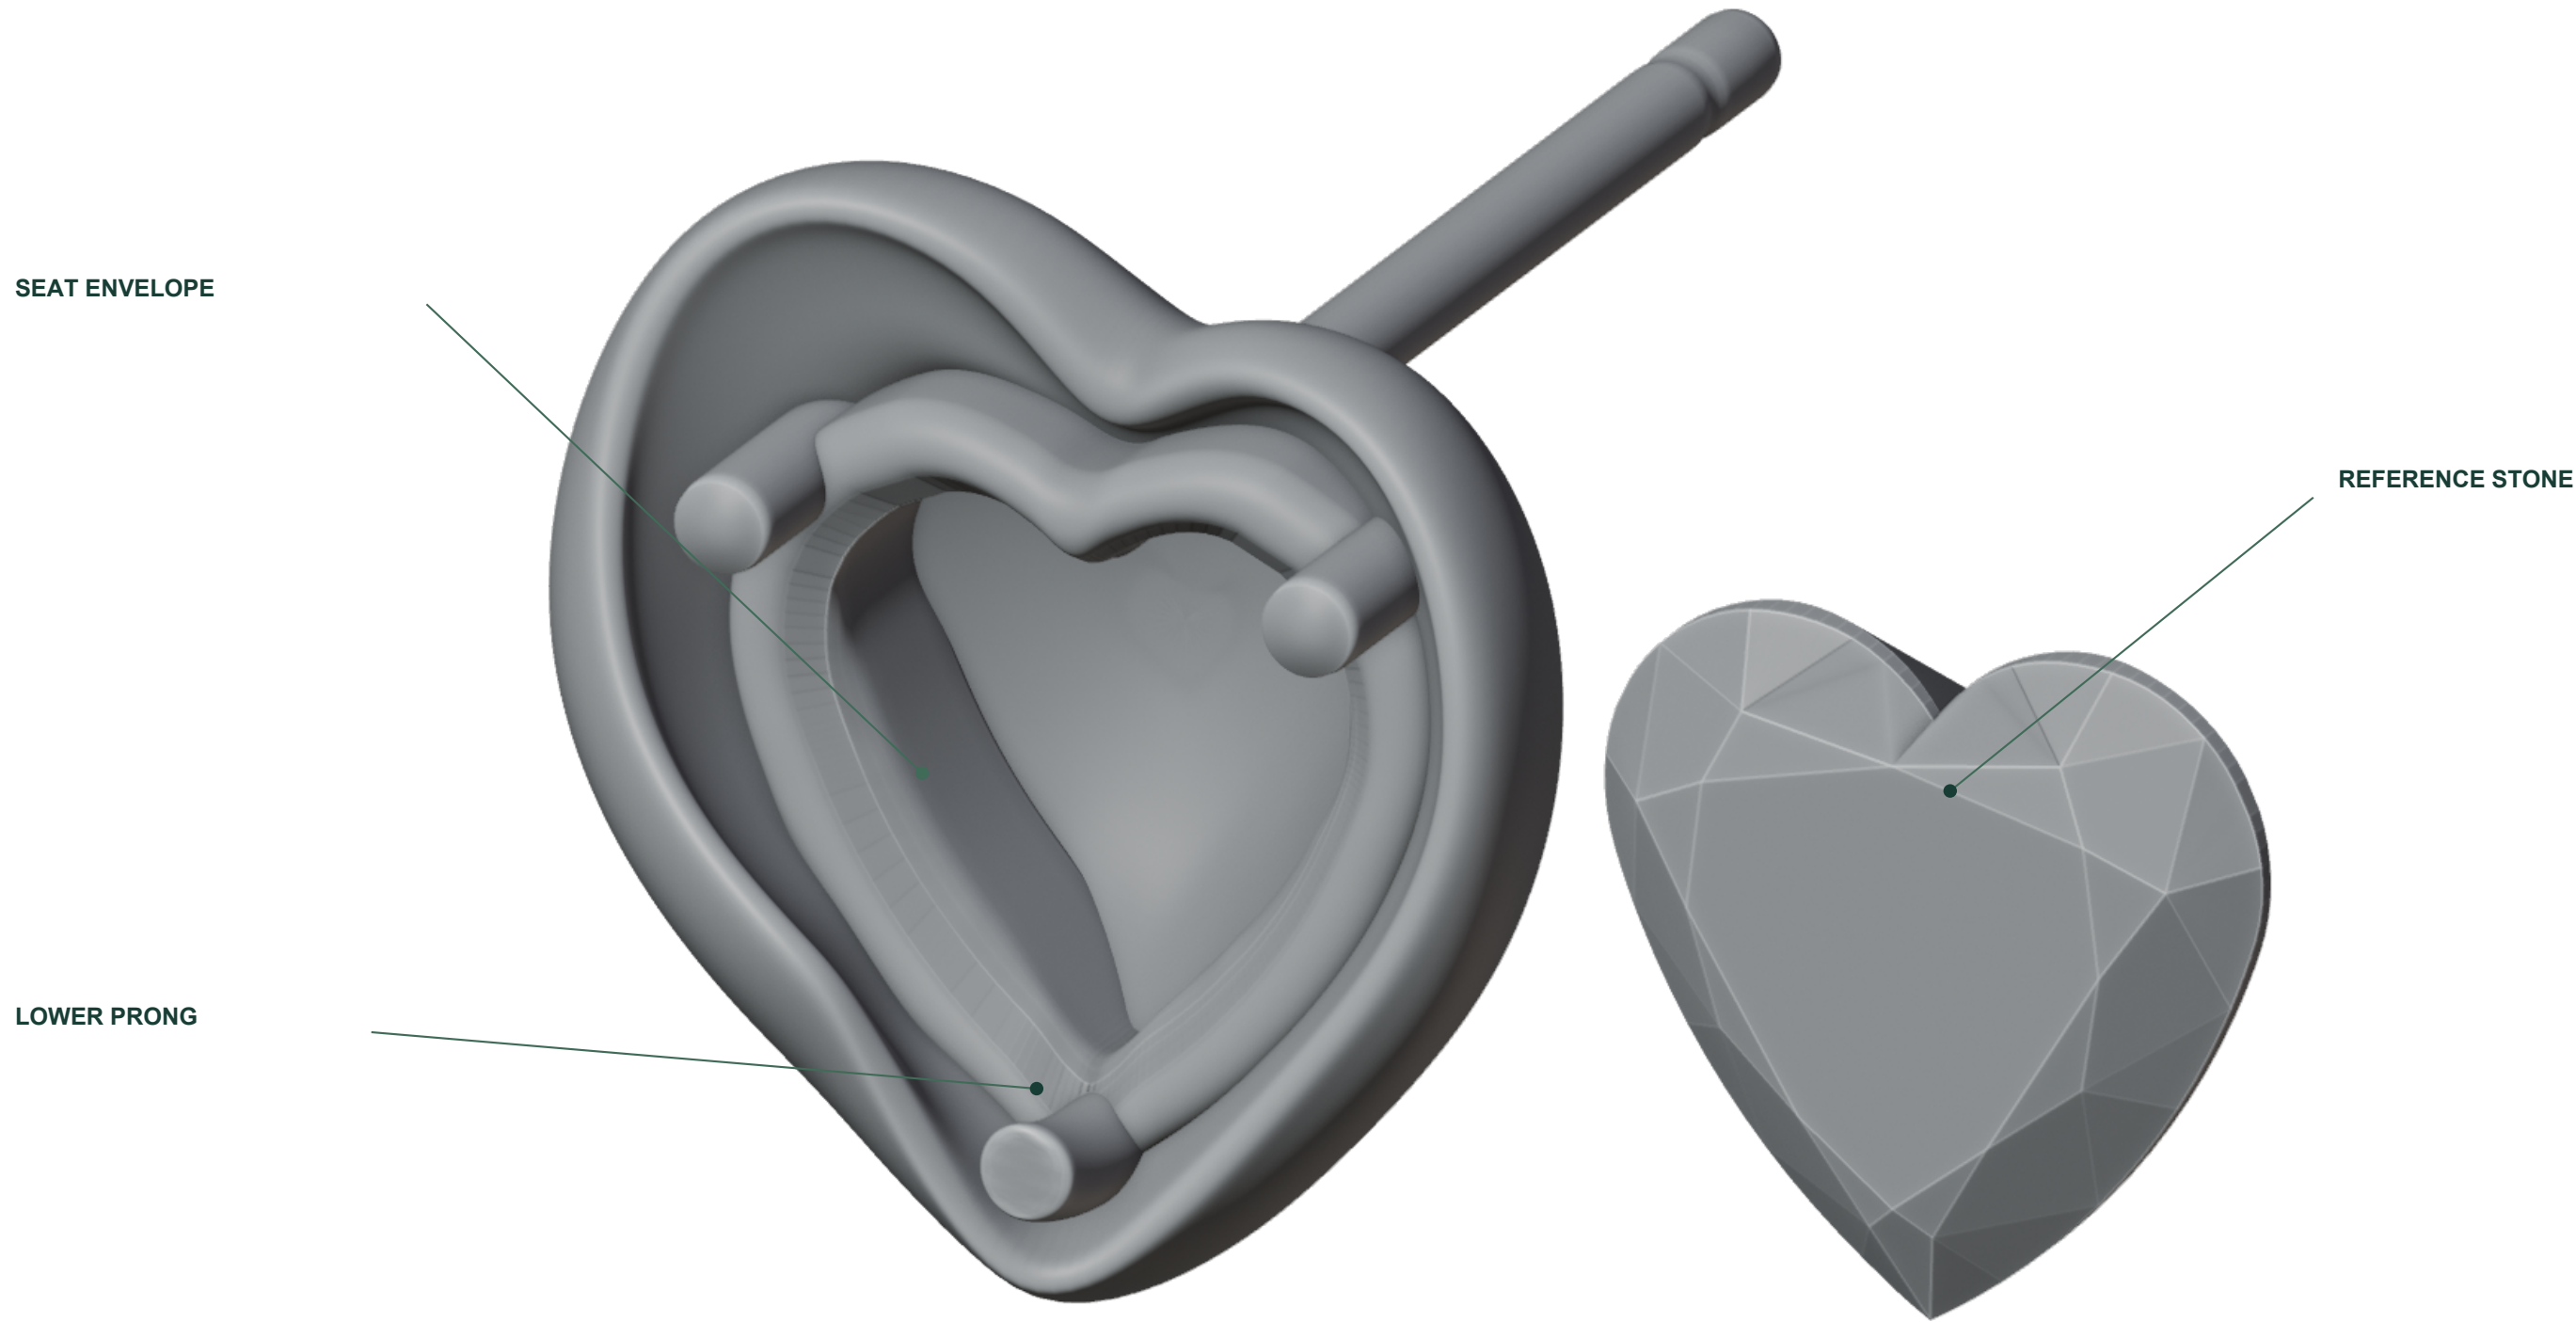

Stone reference mesh

Polished rim

Pictured stone geometry is cubic zirconia (CZ); selected production stone is moissanite.

STONE AND SEAT / EXPLODED VIEW

The reference stone is displaced to show the heart-shaped seat and three prongs.

STONE SELECTION

Production: clear heart-cut moissanite. Illustration: existing cubic zirconia (CZ) reference mesh.
Confirm supplier dimensions, girdle, pavilion and point before cutting final stone seats.
