

Adesina Adebola

JEWELLERY DESIGNER | CAD AND TECHNICAL DEVELOPMENT

Lagos, Nigeria | +234 802 313 4960 | deybor4l@gmail.com

[Jewellery portfolio](#) | [Amara CAD and specification](#) | [Confluence CAD and specification](#)

Jewellery designer working across rings, studs, pendants and drop earrings, with a B.Sc. in Mechatronics Engineering. Develops dimensioned CAD, technical drawings and material specifications, supported by hands-on CAD, fabrication and physical 3D printing experience.

JEWELLERY DESIGN AND TECHNICAL WORK

Amara Nest | Companion heart studs | Independent design, 2026

- Designed a companion to ITURA's Amara Heart Necklace, retaining the heart and gold-wrap identity while developing a distinct stud silhouette.
- Modelled shell, seat, prongs and post in Blender; documented assembly dimensions, post location, component views and measured sections.
- Prepared proposed silver/vermeil, CZ and finish specifications, with stone fit, backing and sample approval identified as next decisions.

Confluence | Three-stone ring | Independent jewellery development

- Developed a ring CAD study and an eight-sheet technical pack covering geometry, stock prongs, stone schedule, material options, proposed tolerances and sample inspection.

Further jewellery work: Iced-out ring, Heartline pendant and Ribbon Leaf earrings. Jewellery projects shown are digital development work and have not been manufactured.

PHYSICAL FABRICATION EXPERIENCE

3D printed object development | Production ongoing

- Designed and physically 3D printed the trophies, medals and sculptural objects in the [Printed Objects portfolio](#). Current portfolio imagery shows renders and model views.

Innovia Labs | CAD and Fabrication Intern | 2023

- Worked with the CAD and fabrication team and carried out hands-on 3D printing for physical objects.

ADDITIONAL PROFESSIONAL EXPERIENCE

Independent 3D and product design | Present - StrongFood contract (2024): coordinated wrapper and retail display-carton visualizations for three flavour variants. dev.tools: enclosure animation and workshop imagery.

Connect Marketing Services - Creative Team Intern, 2025-2026.

Dead Game Entertainment - Part-time Sculpture Artist, 2025; sculpted game props.

Titan Air Mobility - 3D Design Intern, 2023; eVTOL aircraft visualization.

SKILLS AND EDUCATION

Dimensioned 3D modelling; jewellery technical drawings; material and finish specification; competitor research; physical 3D printing; product visualization.

Software: Blender, Onshape CAD, Adobe Photoshop, DaVinci Resolve.

B.Sc. Mechatronics Engineering | Bells University of Technology | 2025.
